INTERNSHIP OFFER

SOFTWARE ENGINEERING/ DATA SCIENCE / MOBILE APP DEVELOPMENT
(Remote OR in-person)

LOCATION:
Remote

DATES:
10 Week Program Starting Mid-June 2022
(Flexible beginning and end dates)

INFORMATION:
For additional information, please contact Reda Mastouri at
reda.mastouri@rutgers.edu

TO APPLY:
Send your resume to m3s.ride@gmail.com and to reda.mastouri@rutgers.edu. Applicants will be asked to upload a brief cover letter, references, and a resume.

The internship posting is now open starting from June 5th, 2022, until all positions are filled. Applicants being considered will be contacted and scheduled for interviews via Microsoft Teams.

INTERNSHIP SUMMARY:
Interns will be responsible for assisting Software Developers with full-stack development, testing, and developing tasks (*Big Data: Apache Spark, Hive, Hadoop; DevOps: Ansible and Jenkins; Front End: ReactJS, PWA; Mobile: Flutter; Analytics: QuickSight, Kibana, Grafana… etc*).

Job duties include, but are riot limited to, programming, testing, and other functions as assigned.
Internships feature a flexible schedule with some exposure to learn new cutting-edge technologies.

Selected individuals must be motivated and dedicated to learning the software engineering field.
